

REACH Emergency Fund Project - \$2,500

Each year REACH hopes to respond to community emergencies as they unfold. To facilitate this, our team of social workers need a restricted fund to be able to support our beneficiaries in times of need.

The emergency fund is used to respond to natural disasters, homelessness/displacement/emergency rental assistance, house & toilet builds, facilitate small business start-ups, emergency medical support (major incidents), urgent food distribution, and any other occurrence that poses an immediate threat to our families.
