

Ten Excursions and Workshops for REACH Youths - \$500

Providing quality education isn't confined to just the classroom – education extends to provide real-world experiences to students. Our REACH Role Models and Youth Pathways programs provide our youths with access to excursions and workshops all-year long.

Every 5 weeks, our youths are taken out of the classroom to explore what all the experiences and resources the city of Siem Reap has to offer to them. This ranges from free resources such as libraries and museums to creative workshops that introduce them to new hobbies, interests, and even potential career paths.

With \$500, you can secure 10 excursions for our youths to expand their learning and give back to their educational experience.
