

Ponheary Ly Foundation (PLF)

Provide Oral Hygiene for 815 Students for One Year: \$1,500

At three rural primary schools supported by PLF, all children brush their teeth every day after breakfast. Oral hygiene is often something not addressed at home and it's important for children to learn the toothbrushing habit to keep themselves healthy.

There are 815 children who need toothbrushes and toothpaste in their classrooms and those need to be replaced every four months. That's 2,445 toothbrushes per year.
