

Ponheary Ly Foundation (PLF)

Provide Soap for 1,500 Students: \$1,800

Soap is vitally important to all children everywhere, but especially to children who live in remote areas and often do not have it available at home. Partnered with EcoSoap, an NGO that recycles soap and sells it in bulk for \$.20/bar, PLF provides this soap to eight different locations, including two food banks and six schools where 1,500 students are able to wash before and after meals every day.

**That's 9,000 bars of soap every year
for a total cost of \$1,800**
