

## Ponheary Ly Foundation (PLF)

**eLearning for 250 high school students: \$900 per year**

PLF Launched an eLearning campaign during 20 months of Covid related school closures. That saved hundreds of high school students from failing. Once everyone mastered the concept of online learning, opportunities to provide effective eLearning became evident – especially for students living in remote areas. Now that schools have restarted, students are vigorously requesting the continuation of eLearning. PLF already has all of the equipment necessary. All they need is a small stipend for a facilitator and the cost of 3G or the internet.
